

# SWEEPERS

## Picobello 101

### Faster and Simpler Sweeping

Picobello 101 is a very efficient mechanical sweeper that sweeps sand, stones, glass and even wet leaves with ease. It can sweep up to 2100 sqm/h, and is therefore more than 10 times faster than a man with a broom. User just needs to push and all the dust, leaves and dirt are swept in easily.

It combines productivity with value for money. Low maintenance and long lasting. Made in Italy.

#### 5 Important Benefits

- ✓ Fast and economical
- ✓ Suitable to work over hard or soft floors, indoor or outdoor
- ✓ Completely noiseless
- ✓ Engine-free and battery-free, thus unlimited operating time
- ✓ Eco-friendly

Can sweep in both **forward** and **reverse** direction

**Strong metal chassis**  
(other brands use only plastic)

**Adjustable handle**

Established in 1986, today Eureka has emerged as one of the most specialised manufacturer of industrial sweepers, and they have fully geared themselves for the international marketplace.

Sweepers in Eureka are developed through a sophisticated 3D parametric planning system. The cutting edge of technology is the key to the products. With the state-of-the-art R&D and production facilities, Eureka has been bringing continuous innovations in the products, helping in consistently improving the product performance.

Eureka's products are built to comply with major international standards, including European Standard EN. The products have been independently type-tested and certified to the standards.

**Nothing But The Best Only!**

### Standard Accessories

Item	SKU No.
Main Brush	2054-Z-520001
