Weight	1.8 kg	2.3 kg
Working width	6.5"	7.5"

Importance of Sweeping Before Mopping / Scrubbing

It is most important to remove the dry dust / soil before washing / mopping / scrubbing the floor. By not removing dry dust first and proceeding directly to wet mopping, the dry dust gets damp and sticks on the floor.

Also, for scrubbing of floors using autoscrubbers, it is very important to remove dust and hair using a dust mop before running the autoscrubbers. This removes sand and hair that severely degrades the autoscrubber cleaning dryness.
