## How do Diamond Pads work?

- ◆ Diamond Pads are a way to mechanically clean and maintain floors using floor pads prepared with billions of microscopic diamonds.
- ◆ Diamond Pads eliminates the use of detergents for daily floor maintenance and deep cleaning that delivers chemical free cleaning with high gloss everyday.
- ◆ The microscopic diamonds in each of the Diamond pads will effectively clean any floor surface.
- ◆ Each pad carries a different size of diamonds (grits).
- ◆ Diamond GREEN Pad will also polish the floor and keep the natural shine and gloss of the floor.

With Diamond, floor surfaces become smoother
