SKU No.	2344-Z-SVA38FK
Length of Pole	160cm
Diameter	38mm
Max Reach	15m

SpaceVac

WORLD'S LEADING HIGH-LEVEL CLEANING SYSTEM

Scan For Details

The SpaceVac is designed for High-Level cleaning. With no need for scaffolding, save time by covering up to 3 times the area when cleaning from the floor. Each set reaches at least 10m including the head attachment, allowing the spacevac to reach more than 4 storeys.

Attached with a wireless camera system, it provides real time streaming while cleaning. For safety, every pole and head tool has a unique safety locking mechanism that ensures non-separation during use.
